Professor Farley,

Let me just say that it has been an honor to be in your class this semester; you are a fabulous teacher. I hope to have you again in a year when I come back to Tech, and look forward to (hopefully) working with your research team over the summer. (I am still interested!) I thoroughly enjoyed writing this paper, and I hope that is reflected in my writing. Thank you for everything,

-Wendell

December 8, 2007

Hello Professor Farley:

Thank you for such a great English class this semester, and for teaching me so much. I feel as if my writing has improved throughout this year and I was also able to deal with my fear of speaking in front of an audience. Though I have not completely conquered that fear, I feel I have made an improvement because of your class and that means a lot to me. I cannot really describe how happy and satisfied I was taking this course, but thank you for making my first semester here a worth-while experience and I hope I can have you as a teacher again next semester.

All the best,

-Keith

Dear Dr. Farley:

Thanks for being such a good teacher- this is the first lit class I've actually ever enjoyed, and the only class this semester I did not fall asleep in!!

Thanks again,

-Carolyn

Dear Professor Farley

Thanks for making English way more enjoyable than I ever thought it could be. I'm not just saying that, I never enjoyed English (that's why I came to Tech) until now. This was definitely a great class and you also showed me that I could enjoy writing. See you next semester...have a great break!

Thank you,
Jim

Professor Farley:

Thanks for driving me to find a new interest in writing that blew away almost all the strict methodology I had been taught in highschool. I look forward to another semester in your class in the spring.

Thanks,
Dave

Dear Professor Farley,

Thank you for your help this semester. I feel so happy and lucky to be your student and I hope I could get into your 1102 class next semester. I hope you will have an excellent winter break.

-Jesse

Hi Dr. Farley,

I just wanted to say thanks for everything you've done for us this semester, be it the personal tour of the Computational Media demonstration or expressing sincere interest in things that we are passionate about. I honestly did not expect any of these from a professor, and you have indeed made my first semester here at Tech all the more enjoyable.

Thanks again,
Peter
